FEATURED WINTER PROGRAMMING

WINTER BASKETBALL LEAGUE - Start Date - December 6, 2019

For kids of all grades, basketball instruction is geared to each skill level. Beginners learn the basics of dribbling, shooting and passing, then will work on form and technique. Each skill level will have friendly, refereed games within the same age range with practice one night per week. Our experienced, all-volunteer coaching staff will instill a healthy love for the game. Game jerseys are available for purchase.

Development League	***Grades K-2***	***Fridays 6:00-8:00PM***
Premier League	***Grades 3-5***	***Saturdays 10:00-12:00PM***
Junior League	***Grades 6-8***	***Saturdays 12:00-3:00PM***

WINTER VACATION WEEK

DAILY FUN—All vacation long enjoy games, contests, gym actvities, art projects, the latest movies and classic video games. New actvities start each hour. COST - $100 per week; per child; pre-registration is required. Scholarship rate is available

MEMBERS ONLY ***Monday, December 23 - Tuesday, December 31***

TORCH CLUB

Torch Clubs are chartered, small-group character and leadership clubs for boys and girls ages 11 to 13. Torch Club is a "club within the Club," helping to meet the special character-development needs of younger adolescents at a critical stage in their life.

A Torch Club is a powerful vehicle through which young people develop and strengthen their 21st-century leadership skills, giving them a firm foundation of good character and integrity. Torch Club members elect officers and work together to implement projects in the four focus areas: service to Club and community; education; health and fitness; and social recreation.

Running Dates: Tuesdays at 5:00 – 6:00 PM ***September 2019 – June 2020***

KEYSTONE CLUB

Keystone Clubs provide leadership development opportunities for young people ages 14 to 18. Youth participate in activities in three focus areas: academic success, career preparation and community service. With the guidance of an adult advisor, Keystone Clubs aim to have a positive impact on members, the Club and community. BGCA hosts an annual National Keystone Conference for Boys & Girls Club teens that brings together members from all across the globe. Throughout the conference, Keystone members engage and socialize with peers, explore relevant issues, and develop skills to support and enhance efforts in their local Boys & Girls Clubs and communities.

Running Dates: Wednesday 6:00 – 7:00 PM ***September 2019 – June 2020***

EXCITING PROGRAMS

MONEY MATTERS

Money Matters promotes financial responsibility and independence among Club members ages 13 to 18.

Young adults in the U.S. today are facing a perfect storm of personal and social pressures that can compromise their financial well-being: record lows in savings, record highs in student and consumer debt, increasing living costs and uncertain employment prospects. Money Matters helps young people learn financial literacy, so they can make good financial choices as adults. Participants learn how to manage a checking account, create a budget, save and invest, start small businesses and pay for college. Teens who complete Money Matters show improved financial management skills, including saving money and sticking to a budget.

Thursday's 5:30-6:30PM

DRAMA MATTERS - Partnership With Newton Theatre Company

This year's drama show will be: Charlie and The Chocolate Factory (Songs Included)

DramaMatters Afterschool is a drama education program for Clubs that encourages members ages 6 to 18 to engage in hands-on performing arts activities.

Drama education builds self-confidence, sparks creativity and boosts academic achievement. The DramaMatters Afterschool Program Guide is a weekly program consisting of 60 minute sessions segmented for beginner, intermediate and advanced members. Each session can be adapted to fit the age of participants as well. Sessions consist of a short warm-up; a main activity of games, script work or performance; and a 10-minute cool-down. The Lessons in Stagecraft Program Guide includes many different ways for members to express themselves creatively, from costumes to set design or directing.

Starting Tuesdays Jan. 7th. 1:30-2:30PM

Show Date: April 14th at 6PM

STEM EDUCATION

JOHN M. BARRY BOYS & GIRLS CLUB OF NEWTON

RUSSIAN SCHOOL OF MATH
The award-winning Russian School of Mathematics is offering a full-year math program for elementary school children at the Boys and Girls Club. The program is designed to provide an important boost to elementary school students by helping them to develop the skills and confidence they need to become strong in mathematics. Classes will run for an hour a week, and will be based on the RSM curriculum aiming to build up skills, develop critical and logical thinking, and involve alternative approaches such as hands-on activities, puzzles, and projects to engage students. Members are required to sign-up for this program which will run for the entire year.
Grades 1 to 4 **Thursdays, 4:00 - 5:00PM**

DIY STEM
DIY STEM is a hands-on, activity-based STEM curriculum which connects youth aged 9 to 12 to science themes they encounter regularly. Special attention is paid to connections of theory and application and the common interactions members have with these scientific principles. DIY STEM currently includes five modules: Energy and Electricity, Engineering Design, Food Chemistry, Science of Sports: Football. DIY STEM provides youth who might otherwise not have access to STEM experiences with simple, fun, hands-on activities. Exposure to science, technology, engineering and math is critical during the tween years, when young people's natural curiosity drives interest and builds capacity for success in these disciplines.
Grades 2-6 ***Wednesdays, 4:15 -5:15PM***

CODING
Coding gives members an opportunity to deepen their computer science skills as well as their confidence. During the program the activities are designed to give a chance to understand the importance of learning to code. Understanding computers and learning the basics of coding helps children to develop an appreciation of how things work. It also teaches them how software engineers use math in order to solve problems in a logical and creative way.
Grades 1 to 5 ***Tuesday 2:30-3:30PM***

ANIMATION LAB - *STARTS JAN 27TH*
Learn the secrets behind moving pictures and create your own animations. Experiment with all kinds of cool techniques: use paper to create animated stories as people have been doing for centuries; get hands-on with Claymation and Lego animation, creating short stop-motion videos with characters of your very own; and use a technique called "Humanimation," to animate yourself as a character. By the end of this class, you'll be an animation expert, and your amazing videos will be posted online for you to share with family and friends. Registration is available on our website…
Grades 1 to 5 ***Tuesday 2:30-3:30PM***

3D PRINTING II
The newest DIY craze has come to the Newton Boys & Girls Club! Come learn the basics using the TinkerCAD program along with our brand new MakerBot 3D printer to make your imagination come to life! (Registration is limited to 8 students.)
Grades 3-6 ***Fridays, 4:00 - 5:00PM***
